Multiverse All-Star Battlefront — Quick User Guide

1. Accessing the Game

Only **one user per link** can play at a time. Try them in order:

1. https://battle.patrickstar.dev
2. https://battle2.patrickstar.dev
3. https://battle3.patrickstar.dev

If busy, you'll see **"The app is currently in use."** Try the next link. If all are busy, please return later.

➡️**Please close the tab when finished so others can play.**

---

2. Before You Start

A popup will show: Rules & Guidelines, Terms & Conditions

You **must click both links** before the **I Agree** button unlocks.

---

3. How to Play

Step 1 — Describe Your Character

Enter a short description (max \~500 characters). Example:

- "an adorable Siamese cat named Mocha, wearing a tiny crown and wielding a magical wish-granting lantern"

Step 2 — Loading

You'll be redirected to a page introducing the game. By the time you finish reading, you can return and your character will be ready.

Do not refresh. If an error occurs, restart and try again with a new description.

Step 3 — Character Stats

You will see:

- portrait
- HP, MP, ATK, DEF, AGI, LUCK

- skillset

Step 4 — Mini Game / Progress Bar

While the battle sim processes, a mini game is available. A progress bar shows when the battle is ready.

Step 5 — Battle Simulation

View a comic-style battle. Use **Next / Prev** buttons to flip pages.

Step 6 — Results

See win/lose/draw and a short summary. Close or restart when finished.

---

4. Tips

- Try links in order.
- Close the site when done.
- Don’t refresh during loading.

---

5. Troubleshooting

Images slow: Normal—generated in real time.

Character generation error: Restart and use a slightly different description or a new one.

---

6. Contact

For issues or feedback, contact the developer.
